

Zoran Kalinić, Director of the Film «The Mystery of Human Existence»

Director Zoran Kalinic arrived to Belgrade on the eve of yesterday's press conference in order to present his story, which is related to tradition and mystery:

«There is no exact data as to when the underground church in Jajce was built. According to our knowledge, this a totally unique monument in the world. There are similar ones in Turkey, but in our country it is the only structure of this type. On the initiative of the Society for the Protection of Historical Values of Jajce and Mr. Enes Milak, the NTV Banjaluka TV station has made a film about it.

ELIZABETA ZEMLJIC, Director of the Film “Ginger Land”

The names that the Swedes are familiar with are Milosevic, Karadzic, Mladic... After this film, they will also know the life stories and the names of the girls from my film – Milica, Sladjana, Ana and Vanja. And I can already see the results: my film has been very well received in Sweden.

SUDABE MOJAVERI, Director of the Film «Inana».

«My film is the story about a goddess the cult of which goes back as early as a thousand years B.C. and which still exists today. From the perspective of the present, the film looks into the past and from the past it observes today's man.
